## U. S. Minister To China

William W. Rockhill, who was the American commissioner to China for the settlement of the Boxer troubles, has been honored by the President with the appointment as Ambassador to the Court of Tsi Ann.

Minister Rockhill is a passenger aboard the Manchuria. He was born in Philadelphia in 1854. He married in Litchfield, Connecticut, in April, 1900, Miss Edith H. Perkins. He was a member of our legation at Peking in 1884; he made two journeys of exploration in China, Mongolia and Tibet, he has been an Assistant Secretary of State. He was United States Minister to Greece, Roumania and Servia from 1897 to 1899. Following the Boxer troubles he signed the final protocol, and he has been Director of the Bureau of American Republics since 1899.

## COPTIC HAS SMALLPOX

JAPANESE PASSENGER IN STEERAGE FOUND THIS MORNING TO HAVE THE DISEASE.

The S. S. Coptic lies anchored in the stream at the foot of Fort street in quarantine. A case of small-pox was discovered this morning by Dr. Hobdy of the local Marine Hospital Service, so the vessel was at once ordered moored away from any wharf.

The vessel left Yokohama April 15 on time. She had a good trip to this port, and when Dr. Hobdy, in the quarantine launch, went alongside and inquired how everybody was aboard, he was informed that all were well. Dr. Hobdy began the examination of the crew and steerage passengers. He examined 175 Japanese and found nothing the matter with them, but when the 176th man was reached the physician saw at once that the man was suffering from small-pox. In fact the patient had quite a well-defined case. It seems that the man had been kept out of sight by his friends for four or five days before the vessel reached this port, as the eruptions which had appeared must have broken out at not less than four days ago. The case is not dangerous however.

The vessel's steerage passengers are to be transferred to the quarantine island station, so that the quarters occupied by the Japanese can be disinfected. The disinfecting process will require at least twenty-four hours, so the vessel will not sail before tomorrow. Her freight to this port is to be discharged on to lighters.

## TO GIVE MORE SPEED

THE HOUSE ACTS FAVORABLY ON THE BILL TO LET STREET CARS GO FASTER.

The select committee consisting of the members from Oahu reported on the bill submitted by Andrade to place the matter of the speed of street cars in the hands of the Governor and the Superintendent of Public Works. It suggested amending the bill so that the approval of the Governor, the Superintendent of Public Works and upon the organization of county government, the Board of Supervisors instead of the Superintendent of Public Works, may authorize a speed not exceeding 20 miles an hour outside the limits and not more than 12 miles within the limits.

The bill as amended passed third reading by 25 to 5. Kaniho, Lewis, Mahikoa, Nakulua and Palua voted in the negative.

## Robbed The Bank Of Million And a Half

(Associated Press Cable to The Star).

MILWAUKEE, Wis., April 24.—Frank G. Bigelow, president of the First National Bank of this city, and former president of the American Bankers' Association, has been found to be a defaulter of the bank's funds to the extent of \$1,500,000. The directors of the institution have made his defalcation good. A gigantic wheat speculation which was unsuccessful, was the cause for Bigelow's defalcation. He has turned over to the bank property worth \$300,000 to indemnify the bank directors to that extent.

What is known as the John W. Gates wheat corner, because engineered by Gates, collapsed, according to the cable dispatches, April 20. The price declined five cents that day. It is stated however that Gates and his associates did not lose much. It is to be presumed that it was in this unsuccessful corner that Bigelow lost his money, unless it is an old defalcation that has been carried by the bank for some time, which seems hardly probable.

## ROJESTVENSKY'S FLEET

KAMRANH BAY, April 24.—Fifty-two Russian warships sailed hence northward last Saturday. Five Russian, four German and seven Danish vessels, evidently colliers and supply vessels, still remain in the offing.

It is believed that Admiral Rojestvensky will try to effect a junction with the squadron of Admiral Nebogatoff before offering battle to the Japanese fleet.

## MORE RUMORS OF PEACE

ST. PETERSBURG, April 24.—There are rumors that another attempt at negotiations for peace between Japan and Russia is being made.

It is thought that Marshal Oyama plans to await the result of the naval battle before further advancing against General Linevitch. Oyama may invest Vladivostok.

## RODGERS RETIRES

SECRETARY OF THE BOARD OF EDUCATION PRESENTS HIS RESIGNATION THIS MORNING AND E. W. ESTEP IS APPOINTED TO SUCCEED HIM ON JULY ONE—LEAVES OF ABSENCE REFUSED.

Dr. Rogers' resignation as secretary to the Board of Education was presented to the board this morning and E. W. Estep was appointed to fill the vacancy. The doctor's resignation was accepted to take effect June 30, and Estep will begin to serve on July 1. The new secretary has been connected with the school department as a teacher, for about 18 years on Hawaii and Oahu. He is also an attorney at law and has had business experience.

The meeting of the Board this morning was attended by Superintendent Davis and Commissioners Alexander, Jordan, Holt and Hall. The principal business was the acceptance of Rogers' resignation and the selection of Estep to succeed him. "Mr. Estep brings to the department both business and legal ability," said Superintendent Davis. Several applications for leaves of absence were received from teachers who want to get away before the day of closing the present term. All were refused. Life certificates were granted to Mrs. Katherine Winter, Miss A. M. Peiker and Miss Rhoda H. Green. Miss Mabel Ladd was appointed to take the place of Mrs. C. K. Brown who resigned from the Royal school on account of her health. A grammar certificate was issued to Miss Mary F. Parker of the Hilo Union school. Miss Marie Pikoai was transferred from Waikiki to Pauoa.

## Waited All Night To Get Palolo Lots

OPENING OF GOVERNMENT LANDS UP THE VALLEY THIS MORNING—A CROWD TO THE OFFICE OF LAND COMMISSIONER PAULY—SOME WAITED IN LINE SINCE YESTERDAY FOR FIRST PICK.

There was quite a rush for the best locations in the Palolo Valley land opening at the office of Commissioner Pratt this morning. Many have visited the valley since the opening was announced, in order to pick out locations, and the opening hour, 9 o'clock, found them in line at Pratt's office. Some were there yesterday afternoon and remained in line all afternoon and last night to be sure of their places in line. Eighteen lots were quickly taken by the following citizens: L. Kong, Charles Kaonoi, J. K. Kelukama, G. K. Kahunana, Charles L. Rhodes, Thomas Dunn, Miss A. R. Coats, E. B. Miller, W. W. Carlyle, Fred H. Kilberg, J. Fritschl, T. J. Quinn, C. D. Pringle, Clem K. Quinn, A. P. Palekalulu, Isaac Noar, Frank L. Webster, N. Iaukta. The lots were taken under right of purchase leases, under which an absolute purchase at the appraised value may be made by the holder of the lot, after the end of three years, if the terms have been complied with up to that time, including cultivation of twenty-five per cent of the lot and at least two years' residence on it. Frank L. Webster proposes to start a grove of rubber trees on his lot, and will begin work at once. Thomas Dunn is an employee of the naval station.

Constitute a Complete and Artistic Pictorial and Descriptive History

OF THE GREAT ST. LOUIS WORLD'S FAIR

(Reduced Pen Sketch of Cover. Size of Page, 11x14 inches.)

**SO THOROUGHLY** does this Great Exposition represent the world's civilization that if all men's other works were, by some unspeakable catastrophe, blotted out,

And, just as the Louisiana Purchase Exposition held within its gates an epitome of the civilization of to-day, so the Forest City Portfolios are a complete record and reflex of the great Exposition. This great World's Fair, one of the most remarkable undertakings in the history of American civilization and progress, will inspire many pens, but no history of the great event can compare with the one written on the grounds by Secretary Stevens and illustrated with 480 magnificent photographic reproductions, which transfer the Exposition to the printed page.

**NEVADAN IS TO GET A NEW SHAFT**

STEAMER WILL NOT SAIL ON TIME FROM SAN FRANCISCO FOR HONOLULU.

The S. S. Nevadan will be delayed leaving San Francisco this month for Honolulu. She was to have sailed April 30 from San Francisco but a dispatch to the Marine Exchange states that the vessel is to be given a new shaft so will be unable to get away on time. She will probably not reach Honolulu until some time next month.

**HIBERNIAN BALL THIS EVENING**

This evening, at Progress Hall, the Ancient Order of Hibernians in America give their second annual ball, and all indications point to a large crowd and a jolly time. Special efforts have been made to please, both as to the arrangement of the dances and the refreshments. Card tables will be arranged for those who do not care to dance, and this with the refreshments, music and jolly crowd should well repay attendance, leaving the dancing entirely out of consideration. No effort will be spared to make the occasion a thoroughly enjoyable one for all present.

**SPEED OF CARS.**

Nearly the whole of Saturday afternoon was spent by the House of Representatives in discussion of the proposition to allow the matter of the regulation of the speed of street cars to remain in the hands of the Governor and the Superintendent of Public Works. The matter was finally returned to a committee consisting of the members resident in Honolulu with instructions to report this morning.

**COMPANY RESENTS ACCUSATION.**

The Board of Trade has been advised that the California Fruit Cannery's Association, who were considering the erection of a pineapple cannery at Hilo, refuse to entertain the proposition, on account of the growers' dilatoriness and a recent published statement in the Hawaii Herald that the company was an octopus.—Hilo Tribune.

**AQUATIC CARNIVAL DREWS BIG CROWD**

SEATING ARRANGEMENTS AT THE WHARF WERE THE CAUSE OF CONSIDERABLE PILE-UP.

The aquatic carnival drew an immense crowd to the naval docks on Saturday night and the crowd and illumination formed a spectacle in themselves which was fully as interesting as the performance. The seating and ticket arrangements were atrocious and many were the complaints of those who arrived with tickets supposed to entitle them to reserved seats, only to find their seats gone. This was the case with most people who did not arrive early, "reserved" tickets being of little effect. The management was subjected to the severest criticism for the failure to make proper arrangements.

The swimming races aroused much interest. The fifty yard championship was won for the Healanis by Dan Rehear. There was some dispute as to whether Thomas Huestce of the Myrtles was not entitled to the decision and the race will be repeated next Saturday afternoon. Ernest Kopke also represented the Myrtles and Wagner the U. S. Navy.

The boys' fifty yard dash was won by Palika and Lou's Richards won the chariot race. Some boxing matches on a pontoon were of no merit as boxing events, and were entirely out of place. L. Barron the human cork, was an amusing feature. Dan Rehear, George Freeth, Willie Campbell and Lieutenant Glover of the Bear also took part. The former two did some very clever exhibition diving, while Glover and Campbell, dressed as women, did good work. George Freeth made an 80 foot dive which won deserved applause. Clothes races and a "ladies" race in which the racers were club members dressed as women, were also sources of amusement to the crowd.

The program was as follows:  
1.—Fifty-yard dash for boys.  
2.—Chariot race.  
3.—Fifty-yard championship.  
4.—Boxing and wrestling.  
5.—100 yard obstacle race.  
6.—The human cork.  
7.—Trapeze flying and fancy diving.  
8.—Eighty-foot leap.  
9.—Spring board diving.  
10.—Clothes race.  
11.—Ladies race.  
12.—300-yard relay race.  
Referee and Announcer—Prof. R. A. Woods.  
Judges—W. H. Soper, M. M. Johnson, Captain Humphrey.

An Eminent Man Within Our Gates

There is within our gates a man, who, in himself and the office he holds, is a very important factor in the industrial life of the nation. He is the Hon. C. P. Neill, United States Commissioner of Labor.

Mr. Neill is here following a long cherished desire to visit Hawaii, and to see for himself, and at first hand, something of the conditions of labor and laborers in this territory.

Mr. Neill, as the head of the Department of Labor, followed a man whose reputation is world-wide. Carroll D. Wright, who for many years was the Commissioner of Labor, is recognized as an authority on the subject with which his department dealt.

Mr. Neill, Carroll D. Wright's successor, and the present Commissioner of Labor, has been long with the department, and when Mr. Wright resigned, to become president of a college, was looked on as his logical successor.

The Rockefeller Gift Of \$100,000

There has been much in the periodical press of late of the controversy over the question whether the American Board of Commissioners of Foreign Missions should accept a gift of \$100,000 recently made or offered it to John D. Rockefeller, of Standard Oil money.

The public prints of the week ending March 18, 1905, report a gift of \$100,000 to the foreign missionary society of the Congregational churches from Mr. John D. Rockefeller, the head of the Standard Oil Company.

We, the undersigned, therefore protest against any action by which our church may even seem to be compromised, and we plead with the officers of the board to decline the gift of Mr. Rockefeller or to return it if it has been accepted.

Dr. Thomas declares that at the meeting at which the petition was drawn up the opinion seemed unanimous that the acceptance of Mr. Rockefeller's gift would be "a silent indorsement of a notorious individual way of making money by overriding law and crushing out individual competitors."

It is not the way of the Christian Church to convert the heathen with money robbed from the people. The Standard Oil Company is so conspicuous for its corrupt methods that the money offered can not be considered, and if it is soiled we do not want it.

But Mr. Rockefeller is president of a corporation which, in its business methods, stands condemned by the best thought of the republic as an enemy of its life.

Until he repents sufficiently of the past by either reforming or leaving the said corporation and making restitution so far as that is possible, the Christian Church had better ask him to keep this money and allow the conversion of the heathen abroad to tarry till we can send the message of light and love by power not publicly convicted of crime.

Japan Is Prosperous

In spite of the fact that the war that Japan is now waging against Russia is most costly and the financial integrity of the Japanese nation is likely to be tasked to the utmost before the conflict will have terminated, times are good in Japan.

report relative to this matter. The report shows in Yen, the Japanese basic coin equal to about 60 cents of American money, the amount of foreign exporting and importing done by Japan during four years. The tables are as follows:

Table with columns for Year (1904, 1903, 1902, 1901), Total Exports, and Total Imports for Japan and Yokohama.

The total value of the Foreign Trade of Japan in 1904 was Yen 690,417,465, in 1903 Yen 606,637,960, in 1902 Yen 530,034,325, and in 1901 Yen 508,166,188.

The customs receipts during 1904 exceeded those of the previous year by over four million yen. The figures for the past four years are: in 1904, Yen 21,230,242; in 1903, 17,947,890; in 1902, 15,313,072; in 1901, 15,122,616.

The Customs receipts for 1904 are shown to be much larger than those of former years. Of course this is an indication of the material imported for the government for war purposes.

### IN THE SENATE

President Leenberg, looking as though he had had a somewhat severe time of it during his recent illness, was on hand to call the Senate to order this morning at the opening of the 55th day of the session.

There was the usual batch of communications relative to bills from the House at the opening of the session. The House failed to concur in the amendments to House Bill 185, and asked for a conference. Hayselden, Lane and Kalama were appointed Senate conferees. The House likewise asked a conference on House Bill 188, and the same conferees were appointed.

A communication from the Chinese Y. M. C. A. asked for the passage of a law exempting its property used for religious purposes from taxation. The petition was received and referred to the Ways and Means Committee.

Senate Bill 196, to repeal Section 2085 of the Revised Laws, relating to the regulation of markets, passed third reading without dissent.

House Bill 4, to repeal the obsolete vaccination laws, was read for the second time and tabled.

Dickey moved a reconsideration of House Bill 201, the jury appropriation bill, and when this carried, moved an amendment to facilitate the drawing of money by Hawaii jurors. The amendment was accepted.

### DEPARTURE OF IROQUOIS DELAYED

VESSEL WILL LEAVE FOR MIDWAY ABOUT MAY 3—WILL GO TO PEARL HARBOR TOMORROW.

Captain Niblack was notified that the additional stores for the marine guard at Midway which were to have been sent by the S. S. Nevada, will be shipped by the S. S. Ventura leaving San Francisco next Wednesday. The stores will reach Honolulu May 3. It had been planned to send the U. S. S. Iroquois to Midway and the other islands lying to the west of Kauai on May 2, but the delay in the shipment of the stores will necessitate a delay in the departure of the Iroquois.

The schooner Charles Levi Woodbury will probably not get away for Laysan Island until May 3. She was scheduled to depart on May 2. She will go to Laysan Island first landing Captain Max Schlemmer and family and then will continue to Midway to discharge the stores for the cable people and marine guard. From Midway the vessel will return to Laysan to load a cargo of guano for Honolulu.

The U. S. S. Iroquois will leave tomorrow morning for Pearl Harbor to take the marines at the naval station and the marines from the cruiser Boston to the Peninsula. The Boston marines will remain about a week for target practice with small arms, while the other men will remain about a month in regular encampment.

### RAPID TRANSIT IN THE HOUSE

THE HAYSZELDEN CONCURRENT RESOLUTION OF IMMIGRATION GETS THERE AND IS DEFERRED

The House of Representatives ended last week with a discussion of Rapid Transit matters and it commenced this week with the same concern. The Senate's concurrent resolution in re the Honolulu Rapid Transit and Land Company, Limited was read through in both English and Hawaiian. It asked that the Attorney General be directed to secure a true valuation and capitalization of the Hawaiian Tramways Ltd., by the Rapid Transit; that the Attorney General shall ascertain if the franchise is correctly valued at \$264,191; that he shall find out if the franchise is "property" under the law; that he shall ascertain the validity of the franchise and that he shall protect the territory's rights.

### IN THE HOUSE

In the House this morning consideration of the Senate's amendments to H. B. 96 relating to attachments was deferred until this afternoon.

The Senate sent back House bill 52 to charter the Standard Telephone Company with amendments.

The house unanimously concurred in the amendments and the bill passed third reading.

The secretary of the Territory notified the House that the Governor had complied with the request of the House to return House bill 125, the bill to regulate trust companies.

Harris moved to refuse concurrence in the Senate's amendments and to appoint a conference committee on the bill. Both motions carried and Speaker Knudsen appointed Harris, Copp and Shipman as the committee.

The Senate returned House bill 108 relating to jurors, with amendments, action being deferred until this afternoon.

Lilikalan introduced a resolution for the appropriation of \$85,000 for the enlargement of Nuuanu reservoir and power station.

Cosho had a resolution for a pipe line extension in the Waikuku-Kahului water works.

On motion of Smith it was decided to print the report of the committee on the act regulating fiduciary companies in both English and Hawaiian.

Senate bill 96 (Kalama) for the protection of small food fishes, was up for third reading. An amendment was suggested by Lewis to prevent persons having explosives in their possession near fisheries without lawful excuse but the amendment failed for want of a second. The bill passed third reading by 22 to 7.

The House took a recess at noon.

### AUTOMOBILING AROUND OAHU

CHARLES BELLINA MAKES A TRIAL TRIP AND WILL REPORT TO GOVERNOR CARTER.

Charles Bellina made a tour of the island yesterday in an automobile. He went to make a test of the roads, in their relation to automobilizing, to see if it is practicable to attempt around the island automobile tours.

He had a conference with Governor Carter and Secretary Atkinson on Saturday about the proposed trip, and he was asked to make very careful notes of the roads, and what would be necessary to make them good touring roads, Governor Carter saying that he would like, if the finances of the Territory would permit, a system of roads that would permit of automobile touring around each of the islands. He thought it would add greatly to the attractiveness of the islands to tourists, especially as long distance and foreign country touring has become such a fad.

Mr. Bellina made the trip yesterday without special difficulty. There is at least one point on the other side of the island where the road crosses a stream without a bridge, where it is impossible, or rather impracticable for an automobile to get through. It was one of Bellina's objects to see if it were practicable to make a detour of this place. The start was made about 10 o'clock yesterday morning and the return was at about 7 o'clock in the evening.

#### LAHAINA NOTES.

Barkhausen in Germany, Charles L. Springer has charge of the Pioneer Plantation. Four ladies from Honolulu have been exercising their artistic gifts in this town, and an exhibition of their pictures was given a few days ago.

### POLICE SPIES STIR UP CRIME

PORTO RICANS MAKE COMPLAINT THAT THEY WERE LED INTO A GAMBLING GAME.

Several local Porto Ricans who are workmen of various sorts have made a protest against a "job" which they claim was put up on them a week ago by Porto Rican police spies. According to the story of the victims some of the police are employing the lowest kind of criminals and pimps as spies and informers, and the latter encourage offenses when they find business dull.

Four men who paid a \$6 fine for gambling last Saturday have written a letter in which they declare that they were led into the offense by a police spy and that he was not arrested, though he started the game and took part in it. "The spy asked us to his place for a social evening," said one of the protesters, "proposing a bottle of wine or so. As we are men who work hard all week and have few social outings, it was natural that we should accept. Then after a little wine he proposed a card game and after it was started the police suddenly burst in on us and arrested us for gambling. They never touched the man whose room we were in and who started the game and played with it. He had just got up a game so that he could have it raided and get an informer's fee."

This "raid" occurred at River and Hotel streets. The men who paid the fine and now have a kick to make against the way they were trapped are Camilo Maldonado, P. Cordiro, Pedro Molina and Fullo.

### CHINATOWN CASE TRIAL AGAIN

THE SUPREME COURT REVERSES CIRCUIT COURT IN ANOTHER CLAIMS CASE.

The Supreme Court decided another Chinatown fire claims case this morning, ordering a new trial of the case of the Kwong Lee Yee Company against the Manchester Fire Assurance Company. The lower court is reversed on account of an error during the trial. The syllabus of the decision, which is by Hartwell, says:

"In an action to recover on a fire insurance policy one of the owners of the burned buildings may properly testify concerning their value at the time of the loss, it appearing that he built the buildings, knew their original cost, the use which had been made of them and their value for the purpose of rental. Held: The refusal to allow this evidence to go before the jury and granting a non-suit on the ground of failure to prove the value of the burned buildings was erroneous.

"The court refused the plaintiffs' application for leave to re-open the case and put in further evidence, remarking that the application came too late after counsel had been advised that the court would grant a non-suit. Held: Not error; the meaning of the remark being that under the circumstances the judge did not regard himself as justified in allowing the case to be re-opened."

Baldon & Marx appeared for the plaintiff and A. G. M. Robertson for the defendant. Judge Lindsay sat as justice in place of A. A. Wilder, disqualified.

### OLONA FIBER SAMPLES.

The Board of Trade is having prepared samples of Olona fiber for the purpose of submitting the same to experts and manufacturers, with a view of finding a market for the product, which is growing wild on the mountain slopes of Hawaii. Specimens of olona fishline used years ago by native fishermen attest to its durability and strong qualities.—Hilo Tribune.

### HYDE'S HELP ON EQUITABLE PAY ROLL

FACTION OF ASSURANCE SOCIETY CHARGES COMPANY PAYS OFFICIAL'S PERSONAL SERVANTS.

NEW YORK, March 31.—To investigate the allegation made by a faction in the Equitable Life Insurance Society that a number of J. H. Hyde's personal servants are on the company's payroll, State Superintendent of Insurance Hendricks today held a meeting of the warring parties at his office in this city. Nothing was given out regarding the proceedings.

This last sensational charge follows the allegations by the anti-Hyde faction that Hyde paid for his recent \$80,000 French costume ball at Sherry's out of the Equitable funds, and that the bill for the \$20,000 dinner given to M. Cambon was paid with Equitable money. It is admitted by Hyde's friends that the Equitable paid for the Cambon dinner, but they continue to deny the charge regarding the expensive function at Sherry's at which Rajane, the French actress, gave an impromptu performance of the can-can on a table.

It is openly asserted by persons prominent in the Equitable that many of Hyde's servants are paid out of the treasury of the company, in which he owns a majority of the capital stock. One of these employes, a man who manages Hyde's country estate, is said to receive a salary of \$300 a month. His name is said to be on the payroll of the Equitable Society, and at its offices he is said to draw his salary monthly. At no time except on those monthly pay days does this man show up at the office, it is said.

So persistent are the accusations of Hyde, that getting at the truth of things without adding to the split, Hendricks called today's meeting. Hendricks has called another meeting for tomorrow, at which Hyde's handling of the Equitable funds will be further investigated.

The World tomorrow will say: James H. Hyde, vice-president of the Equitable Life Insurance Society, who is charged with the misuses of the society's funds, received President James W. Alexander's ultimatum yesterday. He was told he must either retire forthwith as an active officer of the Equitable Life, which his father founded, or face complete exposure. Hyde will have until 11 o'clock today to give his answer.

The Tribune will say: The presidency of the Equitable Life Assurance Society has been provisionally offered to John D. Crimmins. It is said on good authority, by representatives of the Hyde party. According to the story, James H. Hyde will offer to retire as vice-president if James V. Alexander will agree to relinquish the presidency in favor of Crimmins. Crimmins is the chairman of a committee of policy holders who have been advocating a plan of mutualization.

### SPRECKELS LOSES IN ALIEN COURT

RUDOLPH MUST PAY TWO THOUSAND TO A DOCTOR WHO GAVE ADVICE BUT NO TREATMENT.

VIENNA, April 12.—The jury at Egor, Bohemia, gave Dr. Edgar Gans a verdict of \$2000 today in his suit against Rudolph Spreckels, the San Francisco millionaire. Spreckels arrived at Carlsbad suffering from chronic appendicitis. On the advice of Gans he summoned a specialist, who later operated upon him. The specialist received what Spreckels considered an exorbitant fee, and when Gans presented his bill for \$2000 Spreckels, acting on the advice of the American Consul, sent a check for \$500.

The physician immediately appealed to the courts and had the American's baggage attached. The amount involved was deposited by Spreckels, who offered to give an amount equal to that in controversy to the hospital in Carlsbad.

Copies of the decision of the United States Supreme Court in the case of Alfred W. Carter vs. George D. Gear as second circuit judge have been received here. The decision is of much importance in that it sustains the chambers jurisdiction of circuit judges here. The decision concludes that "the power to act as chambers was saved by Section 31 (Organic Act) continuing in force the previous laws of Hawaii concerning the courts and their procedure. It would be too narrow a construction to hold that this did not include the procedure before judges of those courts sitting at chambers."

President's Report On Hawaiian Commercial

WHAT PRESIDENT H. P. BALDWIN HAD TO SAY TO THE STOCKHOLDERS AT THE ANNUAL MEETING IN SAN FRANCISCO REGARDING "WAILUKU COMPROMISE," AND OTHER IMPORTANT MATTERS.

The following is the part of the report of President H. P. Baldwin to the stockholders of the Hawaiian Commercial and Sugar Company relating to the "Wailuku Compromise," proposed improvements during the year, and other important matters:

The Koolau aqueduct was practically but not entirely completed the first week of September, 1904, when the water was turned on.

We were having a dry fall, and the Koolau water was badly needed. The Koolau streams were also very low, but this additional water helped us out.

Only a portion of the streams were taken in at the above date. Since then we have, up to date, been taking in additional streams, mostly small ones.

To complete this work will probably cost for the Hawaiian Commercial and Sugar Co.'s proportion, \$3,000.

This aqueduct is a splendid and substantial piece of work, and a credit to the engineer in charge, M. M. O'Shaughnessy.

We are now at work on this extension of the Koolau Ditch, and will have it completed in about six weeks. To complete this work will probably cost for the Hawaiian Commercial and Sugar Co.'s proportion \$4,000.

The Koolau and Nahiku mountain streams are located, as I stated in my report for 1904, where the rainfall is greater than any other part of Maui. Still, even these streams fall rapidly, and are very low in extremely dry weather, so that we are at times liable to suffer for the lack of water, as we have in the past. By referring to the rainfall for the year, it will be observed that the rainfall for Koolau is about twice that of Kailua, for the two months recorded above.

We are at work enlarging and thus increasing the capacity of the old ditches (called the "Center" and "Haiku" Ditches), at and beyond Kailua, as they connect up with the Koolau Ditches, and it is necessary that they should be enlarged so as to carry Koolau water in addition to the Kailua streams, sufficient to fully supply the plantation, and also for storing in our reservoirs at Kailua. These old ditches were constructed small at the further or windward end, and gradually increased in size as they crossed and took up the streams. This was a mistake, as the rainfall increases as you go towards Koolau, and it often occurs that the mountain streams are full at the head of our ditches, while the streams at Kailua are nearly dry.

The reconstructing of these old ditches is expensive, as we are obliged to relocate the ditches, and run tunnels where the old ditches are poor and it is impracticable to enlarge them. It will be necessary to construct about twelve miles of ditch. It is necessarily slow work, as we are obliged to do it while the water is running. This work will be accomplished this year. I estimate that it will cost about \$36,000 to reconstruct and enlarge these ditches, and also enlarge a large reservoir, called the Kanpakaia Reservoir.

We have W. F. Pogue in charge of all the ditch work at Koolau and Kailua, who is carrying on the work in an able and efficient manner.

All the locomotives have been fitted with oil burning apparatus, and we are now running them with oil as fuel, which we find is somewhat more economical than coal, and the engines are doing very satisfactory work.

We have found it necessary to purchase 100 cars, owing to increase in our crops.

We have five sets of steam plows. A new pair of boilers were ordered for one of the oldest sets, which has probably been run on the plantation for over twenty-five years.

Three sets have been fitted with oil burning apparatus. The figures for one month's run show a slight advantage in favor of oil. As in the case of the locomotives, however, the real saving can only be ascertained after the results of a full season's work. The steam plows are doing good work.

Our proposition is to add to our reservoir system each year. Not only on the plantation, but near the head of our Kailua and Koolau ditches, where we are near the streams, and can store fresher water. The difficulty is that there are not many good reservoir sites in that locality, but we are having surveys made, where it is possible to locate reservoirs, and the whole question thoroughly investigated.

The stockholders, who are familiar with the affairs of the Hawaiian Commercial and Sugar Co., are aware that we own what was originally known as the Crown Lands of Wailuku, which takes in the mountain portions of the Wailuku Valley, and a good deal of land in the lower part of the Valley, where the Wailuku Sugar Co. is located. The Hawaiian Commercial and Sugar Co. has also had under a 25-year lease, which will expire in a little over two years, two-thirds of the Waihee stream.

It has been our wish to obtain a permanent right to this water, or as much of it as we could obtain, and the Wailuku Sugar Co. have wanted our lands in Wailuku, and we have been for about three years endeavoring to make a deal, which has been styled the "Wailuku Compromise," with the Wailuku Sugar Co. under a proposition to deed to them our Wailuku land, they to give us a permanent right to a portion of the Waihee stream.

The whole question has been finally settled by an exchange lease, the main features of which are as follows:

We lease to the Wailuku Sugar Co. for 50 years all our Wailuku land, a large portion of the Waikapu land we own on the slope of the Wailuku mountain, reserving for ourselves at Wailuku surplus water and electric power in the Wailuku or Iao Valley, and the right to two pumping stations near the sea coast. The Wailuku Sugar Co. leases to us for the same term of years, 5-12 of the Waihee stream, normal flow, and 1-2 the fresher water, and 1-2 the Waihee stream (normal and fresher) and the right to tunnel jointly with the Wailuku Sugar Co. for water in the Waihee Valley.

We consider the exchange fair to both parties.

Under the terms of the exchange lease we have just entered into with the Wailuku Plantation, we have agreed to join with them in constructing a new ditch, that will carry 45 million gallons of water in 24 hours. This will give us a much better water supply from that valley than we now obtain, when the stream rises above normal flow, which occurs very often.

We will have a 5-12ths interest in this aqueduct, which will probably cost us \$30,000.00

Table with 2 columns: Item and Amount. Items include Koolau aqueduct, Koolau extension, Kailua ditches and reservoirs, and a reservoir on the plantation (about).

For ditches and reservoirs, \$78,000.00

I would advocate adding to each of our two 9-roller mills, a 3-roller mill, thus enabling us to mill a larger amount of cane per day, and obtain better extraction. Approximate cost of this installation, with necessary changes in sugar factory, will be \$100,000.00.

The total estimated expenditure for improvements for 1905 is \$178,000.00.

It gives me pleasure to say that the plantation is now on a dividend

JAPANESE CHURCH DEDICATED

The new Japanese Methodist church on River street was dedicated yesterday afternoon at 2:30 in the presence of a large audience of upward of 400 people comprising Japanese and foreigners. A varied program was carried out, consisting of selections by the pastor, scripture readings, responsive psalms led by the pastor, Rev. G. Motokawa, assisted by other native workers. Rev. J. W. Wadman of the Methodist church preached the sermon. An address was made by John G. Woolley. The building cost \$5654.44, for which \$6015.49 had been collected, leaving a cash balance on hand of \$361.05. Other pledges will run this amount up to \$2161.05. The church desires to purchase an adjacent piece of land for \$2900 and erect a \$600 parsonage thereon, making the total amount needed \$3500. There about \$500 more cash is necessary to carry out this plan.

RAINBOW FALLS PARK.

Superintendent of Public Works Holloway sent a wireless message to the Board of Trade asking what is the lowest price the leasehold interest of the 3.7 acres of land surrounding Rainbow Falls, which was desired for a park, could be obtained for. He stated that if the price were reasonable he would ask the Legislature for an appropriation for its purchase and secure a title to the tract. In the opinion of Superintendent Holloway this is more advisable than granting a government lease of the land to the Park Board. For this reason he did not sign the lease of the land, which had been prepared by the Board of Trade and forwarded to him. The leasehold for sixteen years is held by John T. Baker and sublet by him to the Hawaii Mill Co. Mr. Baker has been prevailed upon to accept \$900 for the surrender of the tract and the Hawaii Mill Co. have agreed to release the land gratis for park purposes. Superintendent Holloway has been advised to this effect.—Hilo Tribune.

# EASTER SERVICES AT THE CHURCHES

FINE MUSIC AND BEAUTIFUL FLOWERS ARE THE PROMINENT FEATURES.

The Easter services at all the churches yesterday were well attended. The Rapid Transit Company sent out extra cars at the hours when people were going to and coming from church. Decorations at all the churches were very attractive.

At the Catholic Cathedral there were services beginning at a very early hour. The Bishop officiated at the early service and at the 10:30 service. The music was under the direction of Father Valentinus. A. B. Cunha and Father Ulich alternated at the organ. The Knights Templar attended service at St. Andrew's cathedral in the evening in a body. The services throughout the day were well attended. The Easter offertory was for the purpose of meeting a deficit of \$600 and of paying a note of \$1,000.

At St. Clement's church the Easter offering was for the purpose of putting in a very handsome stained glass window over the altar. The church was the recipient of very handsome altar vases from friends. The decorations were very beautiful. The Easter music, which was exceptionally well rendered will be repeated next Sunday. The annual meeting of the congregation will be held this evening at 8 o'clock in the Parish House. The monthly meeting of the vestry will be held next Thursday evening.

The decorations at Central Union church were exceedingly fine. The music was elaborate and well rendered. The Easter collection was for the American Board, and at the morning service amounted to \$900. In the evening there were union gospel services. At the Methodist church the pastor, the Rev. J. W. Wadman preached. The offertory solo was sung by Mrs. Crockett, w'ch violin obligato by Miss Andrews.

There were services at St. Augustine's chapel, Waikiki. The chapel was very prettily decorated. The sunrise prayer meeting on Punchbowl was well attended, and so were the services in the afternoon at Oahu Prison.

# KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, headache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a brick-dust sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case." Mrs. Emma Sawyer, Conyers, Ga.

Mrs. Pinkham gives free advice to women; address in confidence, Lynn, Mass.

## SAYS, FIRE PINKHAM!

The report of the special committee appointed to make an investigation of the conduct of President Pinkham of the Board of Health upon the Achi resolution advising the governor to remove that official, was submitted to the Senate this afternoon. There were in fact two reports, Achi signing one calling for Pinkham's removal, and the balance of the committee supporting the President of the Board of Health.

The Achi report which was read first, follows:

Hon. D. P. R. Isenberg, President of the Senate.

Sir: Your committee to whom Senate Resolution No. 47 was referred, respectively report:

The object of the resolution is to advise the Governor to remove the present incumbent of the office of and his President of the Board of Health for the following reasons:

1st. Section 131 of the Revised Laws of Hawaii clearly and distinctly sets forth who, and under what conditions persons may visit places set apart for the segregation of lepers or those presumed to be afflicted with leprosy, and under these conditions one L. E. Pinkham, President of the Board of Health acting as such executive officer of the Board of Health did issue permits to a considerable number of persons to the coral only.

2nd. The permits of the President must be considered as absolute, but on the arrival of the passengers at Kalaupapa, it was found,

(a) That they were received and assisted to land by lepers;

(b) That there was not any corral properly speaking for them to go to;

(c) That L. E. Pinkham acting in his capacity as President of the Board of Health had not in any way provided for the carrying out of the intent of Section 131 of the Revised Laws of Hawaii.

3rd. The aforesaid L. E. Pinkham, the known president of the Board of Health was at that time the 19th day of March 1905, present at Kalaupapa but he failed to carry out the conditions of permits granted by him, and thereby he failed in his duty as such President and against the public safety and contrary to law.

4th. Considerable evidence was given before your committee and liberal time was allowed to Mr. L. E. Pinkham to cross-examine witnesses, but summed up, all of the testimony brought to a concise point, appears to warrant your committee in coming to the conclusion that the President of the Board of Health seeks to evade his responsibility and throw the blame on to a third party. A short and succinct statement of one side of the evidence is submitted by L. E. Pinkham dated 8th of April and giving "answer No. 372."

That communication convicts, and makes, Mr. L. E. Pinkham a person unfit for the office he now holds, and therefore your committee are compelled to the conclusion that the governor should request his resignation.

5th. Your committee further submit that the statement of L. E. Pinkham to your committee in his letter above referred to and beginning on page 2 with the words "as is—is a gross evasion of the main issue. Is he, or is he not, the controlling and executive officer of the police office or that attorney general of Health? The question of what oral, or any other person does not do, or did not say bears nothing in the case.

6th. In the last paragraph but one beginning "the attention" Mr. Pinkham states that "no specific act, or specific

failure to act is alleged in the resolution."

Your committee submits that any officer of the Government failing to carry out his duty to the fullest extent ought to be discharged and more particularly as the President of the Board of Health is by the laws clothed with very large powers, and powers which even the governor dare not evade; and further, all the evidence adduced clearly shows incompetency on the part of L. E. Pinkham.

Your Committee were strongly impressed with the admission in the evidence given by L. E. Pinkham, and borne out by J. D. McVeigh, to the effect that eighteen hours before the people arrived at Kalaupapa; the President of the Board of Health sent a message to Kalaupapa informing the Superintendent of the Leper Settlement, that there was no need of a corral, etc.

We believe it is one of the solemn duties of the Senate to advise the Governor to remove an officer who is incompetent and especially a head of a principal department, which department has absolute powers in many cases, where the life and property of the public are in many ways under its control.

A copy of the evidence produced, the statement of L. E. Pinkham and several letters filed during the course of examination, are hereby filed with the clerk of the Senate.

We therefore recommend that the resolution pass.

Respectfully submitted,  
W. C. ACHI, Chairman.

On motion of Bishop action on the report was deferred.

# As to ZENOLEUM

The Kamoharaha Schools, Agricultural Department, report as follows:

"Our most stubborn case has been that of the farm horse, an old gray mare, so badly infected with the mange that hardly a square foot was free from infection, large blotches on her face, belly and legs were constantly kept raw. It is now three months since beginning treatment with Zenoleum, and although not entirely cured, most of the old sores are healed and much of the bare spaces are becoming covered with hair, perhaps for the first time in years. I consider this a fine example of the worth of Zenoleum in the treatment of our most annoying horse disease in these islands, but it has required thorough and persistent treatment, and I would have no one believe that half-hearted measures will result in anything but disappointment.

"As a cow-spray (solution 'C') we find Zenoleum quite as effective as a fly preventive as the several expensive preparations used heretofore, and at about one-tenth the cost,—a very important item where large herds of dairy cows are kept. In this connection I might add that the spray is likewise effective in keeping away the mosquitoes which are very troublesome about unenclosed horse stalls, and are probably in a large part responsible for the transmission of the mange from one animal to another. We intend using it now freely for this purpose hereafter."

For curing Mange and killing Ticks and Fleas on dogs, nothing can equal Zenoleum.

We have a good stock of Lenoleum on hand.
